

Total Ingredient List

- Include ALL ingredients and/or feedstocks (including water and additives) and ALL suppliers of each ingredient. Ingredient % should be reported by weight unless otherwise noted.
- If an ingredient is removed or % changes during manufacturing, report ingredients remaining in final product and their % on a separate Total Ingredient List.
- Include a separate Total Ingredient List for each Alternate Formulation.
- Check N/A in last two columns if the situation described applies to that ingredient.

Company Name: _____

Product Name: _____

% of ingredient in product (Enter 0% for alternate suppliers)	Ingredient or feedstock (Generic name and/or CAS No.)	Brand name of ingredient (e.g., Supr Feather 12)	Function in final product (e.g., nutrient, active, inert, etc.)	Ingredient supplier name and address (Company who you buy the ingredient from)	Ingredient manufacturer name and address (Company who makes the ingredient)	Proof of purchase (e.g., invoice or receiving log. Ingredient name on purchase document must match brand name reported on this form.)	Manufacturing process (Detailed written description of how the ingredient is made and/or handled as provided by the manufacturer. Generic descriptions found in public domain will not be accepted.)
